

## CUSTOMER TESTIMONIALS

**Skinner's' Kent Primary School**  
Gemma Faircloth - Headteacher  
Gazebo, Trim Trail, Artificial Grass with School Logo  
and Basketball Panel with Scoreboard

'Our Playspaces consultant Nigel was an invaluable support, sharing his extensive knowledge and providing the necessary information required for the project. We are delighted with the quality of the equipment and excellent service from the start to the end of the installation. As a result of this we have developed an excellent learning environment which enhances physical development, outdoor learning and the enjoyment of all pupils. When the pupils returned to school after the summer holidays, they were over the moon at the outdoor space transformation. They are all making full use of the playground, they are excited to be out at break and lunchtime times and they are learning to manage their own risks. Not only is the equipment used at break times, but as an integral part of PE sessions and the outdoor classroom enables all subjects to be taught outside. We couldn't be happier with the facility that we now offer our pupils. It's above and beyond our expectations.'

**We would definitely use Playspaces again.'**

**Sandling Primary School**  
Pat Jackson - School Business Manager  
Stage, Gazebo, Trim Trail, Bespoke Sports Panels

We've had a number of projects over the past 10 years + with Playspaces from trim trails, gazebo, and an outside stage to customised, fun sports targets sited around our playgrounds.

Whatever the project Nigel and his team have listened carefully to what we want and then come back with ideas, suggestions and enhancements. They take their time with you and ensure that the project you plan together will meet your needs and requirements – then they improve it, whilst being conscious of our always tight budget.

They have their own reliable team to build and install the equipment, who are professional, knowledgeable about their products and keen to do a good job. They are very used to working in schools and the health and safety issues - which are particularly important if working during term time. Our most recent acquisition was a wooden play den which our children love. It has extra touches: hidden sand play trays and our name carved above the door.

**We wholeheartedly recommend Playspaces, they provide an excellent quality service from start to finish – which is why we return to them year after year.**
